Dear Roman Ihnatov:

This is further to your request under the Access To Information Act\*\*, which was received on March 6, 2024, for the following records:

"I am pursuing a Data Science Diploma at BrainStation and am working on a capstone project titled "Estimate your chances to get a PR in Canada." This project aims to create a machine learning model predicting the likelihood of obtaining Canadian PR based on applicant-specific data. For this, we request access to anonymized, historical data from 2013-2023, covering: Age Gender Country of origin Country of birth Marital status Number of dependents Highest level of education Field of study Country highest education completed English / French test scores Years of work experience in Canada Years of work experience outside Canada NOC code of work experience Level of study (e.g., diploma, Ph.D.) Number of close relatives in Canada Previous work or study in Canada Spouse's language proficiency, education, and Canadian work experience Immigr. program application was submitted (e.g., Express Entry, PNP) Date of app. submission (or aggregation by month) App. processing times (days) App. outcome (approved, rejected, pending) Offer of employment in Canada Provincial nomination Province PR program any other useful CSV format. This information will solely be used for academic purposes, under strict data privacy standards. This project not only benefits academic research but could also streamline the PR application process, offering insights for both applicants and policy development."

Following a thorough search of our information holdings, I regret to inform you that no records were found that respond to your request.

The program area responsible for statistics has advised us that certain information is also available for purchase through the IRCC cost recovery process (see below\*) and is therefore excluded pursuant to section 68(a) of the Act.

...I regret to inform you that **NO RECORDS** were found that respond to your request...
